Nashville, Sept. 8. The explosion to-day, on the North Western Railroad was a terrible affair. The train consisted of eight passenger coaches. There were nearly 200 passengers on board. The two foremost cars contained powder, shor and shell, and it is supposed that starks from the engine communicated to the powder through cracks in the cars, causing the exposion. Seven persons were killed outright and nearly all received more or less injury. The fireman was killed, the engineer hally injured, and the endictor slightly wounded. The cars were all blown to pieces, except two in the ear. The engine was totally wrecked. The concession was terrific, and shook buildings in town like an earthquake. Situsville Morning Acrald. SATURDAY, SEPTEMBER 9, 1865. -It is asserted in the best informed quarters that Joff. Davis will be tried for tresson, before Chief Justice Chase Ample time has been given for all popular excitement to subside, so that his jury may be as dispassionate as possible; and for the complete preparation by his counsel of every available defense in law and in fact. The delay of the Government in making the arraignment may not have suited some impatient spirit, but has best comported with the sanctity of justice, and with its own dignity The New York Times infers that though convicted, as he will be, he will not be executed The constitution will be vindicated, and the supremacy of the national authority forever established, in law as well in fact, "Public opinion," it observes, "may allow his pardon " "His chances," it futther remarks, "rest merely on technical evasions, and on the perjuty of perversety of jurymen." The impression is strong that the trial will take place in

fitted up for the coming session of the court, which will be held in October -The production of gold, together with silver, on the Pacific side is more prosperous than ever The amount which has passed through San Francisco for the last six months is \$30,000,000, to be added the amount in private hands, equal to fifteen or twenty per cent of the above sum The product of this precious metal this year, in the whole country, is not likely to be less than \$75,000,~ 000.

-The President has declined to order the release of A II Stephens while his application for pardon remains unacted upon. Otherwise, however, he has directed that he be kept as thoroughly comfortable as the facilities of his temporary abode will allow Lanton Stephen, who has gone to visit him, is a half and not a full brother of the distinguished robel Major General Acoker, it is said, his teversed the policy of Gen Dix, and illows the freest correspondence with Mi Stepliens The apartments he occupies have been changed to the locality occu pred by the officers of the fort

The reply of Evira Billy South to

the question whether he had yet applied for pardon, is illustrative of a prominent phase of Southern feeling "Applied for pardon?" said he indignantly 'No, ind I'll be dunned if I ever will apply for a pardon to a failor ' This and relatifies now hang by the sufference of that tulor in quiet retnement on his firm, near Warrenton, Va

--Ketchum's scoundrelism, it seems, was for some time known to two junior partners of the firm to which he belonged According to the letters read at the meeting of the creditors of Kelchum, Son & Co, referred to, it appears that so long since as the 1st of June last, Mr. Swain, one of the junior partners, was aware of the abstraction of securities belonging to the firm by Edward B Ketchun, for purposes of private speculation on his part. Mr Thomas Belknup, Jt , anothor of the pattners, in a letter dated Aug 28, said: "In looking over the lours and securities about the 1st of June, Mr. Swain found that there was missing some \$430,000 United States seven and threetenths per cent notes, \$350,000 legal tender five per cent notes, and \$105,-000 five-twenty United States bonds \*\* Upon being taxed by Mt Swim with the abstraction, Edward admitted it, and | in said he was speculating on his own account, but asserted that the securities were within his control if a little time.
was afforded him " He then goes on to say "Mr Swam informed me of the case at once;" and further that "Mr Swain and myself were both of the opinion that by holding over him the threat of exposure he would be induced to retire from his speculations and make good his | Choice Family Groceries, permitted the matter to run along," but apparently without informing the senior 1931dif member of the firm of the condition of

affaira. -The Masonic Temple, Chestnut street, Philadelphia, has lately been altered, im proved and beautified, and is now consid ered the most splendid and convenient ed ifice of the nort in the ward.

-There is every indication that an im mense number of people from different portions of Europe, are engerly looking forward to future residence in the United States, and are using every means to ascer-tain the price and location of the amnouse ote of land which are lying uncultivated

in the South.

—In Utah an anti-bigamist party is grow ing up, is already strong, and threatens to distorb Brigham Young not a little. When the Government applies to that people the test of obedience to the laws of the land, which it intends to do before long it it mid, we apprehend this new sect will fore the expected storm.
